Pen-Knife Sketches.—No. 6.

BY AN OLD BLOCK.

The Gambler.—"Come down; come down! That's right, boys! Any more? Jack in the door." I am speaking neither of coming down hill, nor of coming down with lofty pretensions—and heaven knows there's enough of the one, and a little of the other, below the Sierra. Aye, and knaves enough, too, not only "*in* the door," but *out* of it. Don't you take? Well, you see that bar with a dozen or two of tents, and bush houses, with a throng of men as busy as a hive of bees at work. Above them you see the hills towering to the skies, making a laggard of he sun, who scarcely vouchsafes to smile out the deep mountain gulches, before eight or nine o'clock. In that aristocratic-looking tent which seems to have been erected with more care, and of greater size than the surrounding ones, besides a counter, shelves, and a motley array of bottles, jars, cans, tin ware, and various mining matters, you see a table made of planks split out of a tree, and covered with cloth to smooth the inequalities of its surface, and seated on a stool, with a pile of Mexican dollars before him, is a man dressed in a red shirt and California hat, in all respects looking like a miner, with the exception of his face, which is minus the everlasting moustache. Indeed, at the first glance, you might in your innocence, mistake him for a miner; but look at his delicate hands, as he holds a pack of monte cards scientifically in his fingers, and you will be convinced that his diggings are in the pockets of the miner, and not in the pockets of the bar. He digs his gold as the cunning monkey dug the chestnuts out of the ashes, with proxy fingers, and some of the poor devils wince as bad in his hands, as the poor cat did in Jocko's, for while they suffer the pain and toil, he luxuriates in safety upon the "flesh-pots" of California. That is the gambler in the mountains.

Wherever good diggings are found, and where men "most do congregate," there follows in their wake the monte dealer, to offer the simple and foolish as good a chance to lose the result of months of labor and privation, in an hour, as is done in the more showy and magnificent hells of the city. To do this, he doffs the costume of refined life, and assumes that of the people with whom he is about to take up a temporary residence, and as patiently climbs the hills, or descends deep and rocky dells, suffers hunger and thirst with as much fortitude as the gold hunter on a prospecting tour, and fixes a transient *locale* wherever a chance exists of vending his wares.

Bold and fearless in his character, while he holds up inducements to the miner to squander his earnings in a game of chance, he does not lack generosity, and while he takes without remorse the hard earned gold from his victims, he pays his losses with perfect *sang froid*, and his debts for use of table, lights, room, and liquor for the crowd, with scrupulous punctuality, as long as he has a dime, without disputing the bill. His law is that of honor, in these particulars; the statute, is for those who need it. He does not. His bold face, a six-shooter, a bowie-knife, and an arm of nerve, is sufficient for his protection, and the enforcement of his view of justice. Generally, a few days spent in one place, is sufficient to drain the fount of the gambling miner's stream, and when all have "come down with the dust" who will pay tribute to folly, the gambler rolls up his blanket, shoulders his pile, and climbs to another bar. But he is not always successful. He sometimes finds his match in the mines, and some long-bearded, hard-fisted *hombre* "breaks the bank," leaving the president, directors and stockholders, with as little of the *quid pro quo* as existed in the vaults of the wild-cat banks of Michigan, in 1837.

While I was luxuriating among the Gold Lake mountains, in October, a gentleman of this class one evening made his appearance on our bar, and the store soon became quite thronged with a host of "anxious seekers," gazing with watery eyes upon the bright pile of the "root of all evil," which was spread before them in a seductive form. "Come down, come down," was the cry, and echo answered "down." Down went the miners' hands into their pockets, and down went the dust upon the table. Jack stood "in the door"—the guardian of the pack, and the knave did his duty to his master, for in a little over two days, three thousand dollars went into the gambler's bank. One afternoon, when it was discovered that the gulches of the miners' pockets were fully worked out and they had no more to "come down" on, JIM rolled up his blankets, and treating all hands with the utmost liberality, he bade them adieu, and made his way out to ——— Valley. That very night he lost all he had made, at one bar, and a thousand dollars besides.

Such is sometimes the gambler's luck, in the mountains, as well as in the city. The professed gambler of the mountains is a curious compound of good and evil. With strong propensities, and an inflamable disposition, when things do not go right, according to his notions of right and wrong, he not unfrequently is possessed of generous sympathy. In a game of monte, he might take every dollar from a miner, yet should that man be utterly destitute, sick, or in distress, no one would more freely contribute for his relief, than he, and he would about as soon fight for his friend as for himself. [*Old Block.*—Recollect, my Pen-knife, that we are not writing sermons, nor criticisms. *Pen-Knife.*—Then I'll *shut up*.]

§1. There shall be a *Board of Health* in and for the city of San Francisco, of which the Mayor, by right of office, shall be *President*, and the members of which shall, from time to time, be appointed by the common council of the city.

§2. In case the Mayor, from any cause, shall be unable to attend to the discharge of his duties as a health officer, the Board of Health may choose one of their own number as President, who shall possess the powers, and perform the duties of the Mayor, in this respect.

§3. In addition to the Mayor, the Board of Health shall consist of eight members, to be selected as follows, to wit: one from the Board of Aldermen, one from the Board of Assistant Aldermen, *three* from the citizens of the city, and *three* from the *medical men* of the city, who are *citizens*.

§4. The Board of Health shall have power, whenever in their judgment the public health shall require it, to *order any* vessel at the wharves of the city, or in its vicinity, (except vessels of war of the United States,) to the quarantine ground, or other place of safety, and may require all articles or things landed or introduced into the city from such vessel, to be seized and returned on board, or removed to the *quarantine* ground.

In case the master, owner, or consignee of the vessel shall refuse or neglect to obey the order of removal, the Mayor or the Board of Health shall have power to remove the vessel at the expense of said master, owner or consignee.

2. The Board of Health shall have the power to require the removal of all persons landed or introduced into the city from any vessel, at the wharves or in the vicinity of the city, whenever in their judgment the public health requires it.

No vessel or person so ordered out, shall return to the city without a written permit of the Board of Health, or the Mayor.

3. The Board of Health shall have power to direct the cleansing and fumigation of any vessel and its cargo in the port of San Francisco, and the destruction of any bedding, clothing, or portion of cargo of said vessel that they may deem infected and likely to spread disease in the city.

4. The Board of Health shall have power to cause to be thrown overboard or destroyed, any portion of the cargo of any vessel in the port of San Francisco, that may be in a decayed or injured condition, and likely on these accounts to produce disease.

5. The Board of Health shall have power to prevent communication between any vessel ordered into quarantine, and the city, except under such regulations as the said Board may establish.

6. The Board of Health shall have power to appoint from time to time, as many health inspectors, and other officers to carry into effect the provisions of this ordinance, and the rules and regulations of the Board as they may deem necessary.

7. The Board of Health shall have power to authorise such officers to enter into and examine, in the day time, all vessels in the port, except vessels of war, and all buildings, lots, and places of every description, within the city, and to ascertain and report to the Board, the condition thereof, so far as the public health may be affected thereby.

8. The Board of Health shall have power to give all such direction, and adopt all such measures as in their judgment may be necessary for cleansing and purifying all such buildings, lots, and other places, and to do or cause to be done, everything in relation thereto, which in their opinion may be proper to preserve the health of the city.

9. The Board of Health shall have power to adopt prompt measures to prevent the spreading of a contagious disease, by forbidding all communication with the house or family so infected, except such as may be necessary for the medical care and provisions for the same, to cause those sick with such disease to be removed to places provided therefor, and to exercise such other authority, when a contagious disease shall appear in the city, as in their judgment the circumstances of the case, and the public good shall require.

10. The Board of Health shall have power, by and with the consent of the Common Council, to provide hospital buildings and the necessary supplies therefor, in as many places as in their judgment may be necessary, whenever an epidemic disease shall prevail in the city, and appoint to the same physicians, as many as may be necessary, and nurses and such other attendants as are deemed by said Board advisable.

§5. Compensation for the health inspectors, physicians and others, appointed by the Board of Health, under the provisions of section 4 of this ordinance, shall be fixed by the Common Council, upon recommendation of the Board of Health.

§6. The expenses incurred from carrying out the provisions of section 4 of this ordinance, shall be paid by the persons or property removed, or by the property subjected to sanitary regulations in other respects, or by the city, as in the judgment of the Board of Health may in each case be deemed just and reasonable.

§7. LEGAL NOTICES.

THE PEOPLE OF THE STATE OF California, District of the County of Santa Clara:

Jose De Arnaz *vs.* Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey.—Petition to foreclose mortgage, &c.

Whereas, *Jose De Arnaz* filed in this Court, on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date:

That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises, to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioner's mortgage, and for general relief.

And it being proved, by affidavit, to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence, and decreed accordingly.

☞ The Editorial and Printing Rooms are in the third story of the same building, where our political and business friends will always receive a cordial welcome.

To Our Advertisers.

Our New Counting Room, (next door to Cronin & Markley's,) is now fully completed, and we shall be happy to receive the favors of advertisers up to 11 o'clock at night--after that hour, in the Printing Office (third story) up to the time of going to press. The central position of the *Pacific News* Office, makes it very convenient to the mercantile community.

☞ Gentlemen wishing the *News* left at their stores and dwellings will be served at an early hour each morning, by leaving their names at the office, or with either of our carriers. Terms, 75 cts. weekly.

The Klamath and Umpqua.

A considerable degree of interest exists in regard to the success of the pioneer movement of the past season, having for its object the settlement and development of the resources of the northern portion of this State and Southern Oregon. The fact, now established beyond all cavil, of the existence of *placeres* of gold amid the foot-hills of the Cascade mountains, and upon all the rivers to the north, gives to that section of the Pacific territory an importance that cannot fail to attract thither an adventurous and hardy population, and open new channels of trade, all of which must become auxiliary to the commercial greatness of San Francisco.

The result of the first exploring expedition to the Klamath and Umpqua rivers—to the former in April last, and the latter in July—were so satisfactory, that a large and influential number of our citizens took an interest in furthering the settlements on both these streams. The second expedition to the Umpqua River and Valley sailed in the last days of September, in the barque Kate Heath, and subsequently two or three other vessels were dispatched, well filled with passengers, houses, merchandize, &c., and with all the appliances for at once bringing into use the advantages of that fertile and salubrious Valley. From these last emigrants nothing has been heard since their sailing; but doubtless in a few days we shall have intelligence from the adventurers, we trust of a satisfactory character.

We are assured that early in the Spring, when the season of fogs and storms has passed away, the Gold Hunter, and other steamers which the increasing trade with Oregon will attract to this route, intend to stop regularly in the Klamath and Umpqua Rivers, both of which are fine streams, and navigable for considerable distances from their estuaries. This will at once give a value to investments in that quarter, and an impetus to trade, that will prove remunerative to thousands, who are seeking fresh avenues for the exercise of the indomitable spirit of the Anglo American race. None can fail to see that an empire is growing up on the Pacific that will concentrate at this point the whole trade of Eastern Asia and Oceanica; and if already the progress we have made is such as to astonish ourselves, the events of the next few years will prove equally wonderful in results.

In another column we give an extract from a very interesting letter from a gentleman at Klamath City, in which is depicted the wild life of the adventurous pioneers, and gratifying intelligence in relation to the mineral resources on the head waters of that river. Every thing that tends to increase our store of knowledge of those hitherto unexplored regions, is sought for with eager appetite by the public; and we shall always endeavor to keep our readers fully posted in the movements to the northward.

Run upon the Rocks.—The steamer "Erastus Corning," on her way down from Stockton, Thursday night, run upon the rocks just below Benicia, knocking a hole in her bottom. Her passengers were brought down by the New World. The stern of the Corning sunk, the bow remaining on the rocks. The captain thought the damage was not so great but that the owners would be enabled to put her in running condition again in a few days.

After the passengers reached the New World, they organized a meeting, and passed resolutions complimentary to the captain and officers of the Corning, and also to the captain and officers of the New World for their kindness and attention.

A Hit.—The *Pic.*, in speaking of the comparative influence of six-and-a-quarter cents in the price of a newspaper, gives us a rap in the following

> Quere! How much are they [our readers] influenced by what they get for a shilling?

Probably quite as much as the market is influenced by the *Picayune's* quotation of scrip at thirty to fifty cents above the current rates.

Common Council.—The Board of Assistants met last evening, and passed the bill paying the Mayor $10,000, and the Mayor's Clerk $5,000. Their proceedings otherwise were of minor importance.

Four months are still left them, and we hope they will devote the residue of their official term to the interests of the city.

Not so Dead a Shot.

The *Courier* of yesterday in copying the following extract from the *State Journal*, remarks that as we [the *Journal* editor and ourself] "were associates and partners in this State, and we believe they were also in New York, the editor of the *Journal* must speak from personal knowledge:"

> "While we acknowledge candidly that we are a whig, we have also another candid acknowledgment to make; and it is that we have known the editor of the *News* to have been of the same faith for many years; and his former good whig digestive organs were never suspected of being impaired in their regular functions, till the political plum of the office of State Printer was accidentally dropped into his unsuspecting mouth; when his good judgment became at once convinced of the fallacy and falsity of a code of political principles, well beloved and sturdily fought for, for a period of nearly thirty years by him, and an immediate renunciation and recantation of the sins of youthful indiscretions, were found to be absolutely necessary, in order to save the political life of the suffering patient!"

We have not the least objection to being put into the "confessional" whenever a curious public wish to inquire into our political pedigree. The editor of the *Journal* was our partner last year in the mines, and we can testify that he understands "rocking the cradle" as well as any body in California.

He gives us credit for a pretty long service in the political arena—thirty years—so that we must have entered upon the troubled waters several years before he was born, and commenced our career at quite a juvenile age ourself. The testimony is unimpeachable, if given "from personal knowledge."

As near as we can recollect, we had the pleasure of giving a vote, in the Fourth Ward of the city of Brooklyn, for no worse a man than the lamented James K. Polk, before we had the *pleasure* of a personal acquaintance with the editor of the *Journal*. And if our memory is not treacherous as to dates, the gentleman who so strongly boasts of his Whiggery, and testifies to our own, was at that period the publisher and editor of a *Native American* paper—and fighting manfully for James Harper, while we were defending and sustaining, in the New World newspaper, the great democratic measures of Texas annexation, and our rights to the whole of Oregon, in direct opposition to Henry Clay, the apostle of the Whigs.

These little reminiscences are always pleasant to us, with the exception of the portion of time from 1832 (our first vote after attaining a majority) till 1840, when we acted with the Whig Party, though disagreeing with it in many points of political faith. A better aim is necessary to the firing of "a dead shot."

☞ The Fair, last evening, opened brilliantly. We had no idea before, that our city could present so many very pleasing and beautiful ladies, or collect together so well chosen a variety of objects suitable for sale on such an occasion. These ladies—precious souls!—must have been kept very busily employed for a few weeks past, and have taxed their ingenuity not a little, to have devised all the multiplicity of useful and fancy articles with which we observed they had adorned their tables.

A crowd thronged the rooms throughout the afternoon and evening of yesterday, among whom we noticed not only the elite of both sexes from our own community, but a number of gentlemen from Sacramento, San Jose and Stockton. Even the French and Chinese showed their good appreciation of the beautiful by attending in numbers. And what pleased us no less than all the rest, was quite a number of sweet, well behaved children, near their mothers at the tables.

We learn that the Fair will be continued throughout the day, to-day, and close this evening by an auction of what may remain. Refreshments in great variety will be found in the hall, and served up by hands as delicate, and with smiles as sweet as those of the Houries.

The sales, up to last night, amounted to somewhat over $2100; and we have no doubt that in the aggregate, the results of the fair will be such as to aid very materially the funds of the church.

P. S.--We learn with the most poignant regret, that at a late hour in the evening, after we had left the Fair, a party of *gentlemen* (!) holding high positions in financial and commercial circles, entered the hall, each having a *woman of the town* upon his arm, thus offering to the lady-managers of the Fair, and their visitants, the deepest and most direct insult that could possibly be conceived. In the name of all that is decent, we would fain believe this report to be an exaggeration, but if it is not, the severest indignation of every respectable person should be visited upon the parties, whatever their wealth or standing. We are told that the sales were immediately discontinued by the managers, and very properly, too.

Won't Quarrel!—The *Courier* and *Picayune* both disclaim any intention to quarrel, and assure us and their readers that they are in an amiable frame of mind. We have no disposition to interfere in family matters, or excite the anger of these loving co-laborers. It is evident enough that our cotemporaries are about as agreeably disposed towards each other as the Seward and Fillmore Whigs in New York—only waiting for a justifying *cause* to open their batteries. That cause will originate when certain questions come up to be disposed of in the Legislature—if the two Whig organs can hold their tempers till that time.

☞ It will be seen that two vessels, with passengers, cleared for the Klamath River yesterday, and will no doubt sail to-day. We suggest that one of them go up to Umpqua, as uneasiness already prevails to a considerable extent, in reference to the fate of the Kate Heath, of which vessel no tidings have been heard since she left, in September.

Steamer Jenny Lind.--This fine little boat, as will be seen by reference to our advertising columns, leaves this afternoon at 4 o'clock, on her usual trip for Marysville.

"Pen Knife Sketches."—On our first page will be found the sixth number of these sketches, from the pen of "Old Block."

Tremendous Snow Storm in the Mountains! Eighteen Men Frozen to Death!

We received yesterday the following letter from our attentive correspondent at Yuba City, who had just returned from an excursion in the mountains, giving the intelligence of the falling of an immense body of snow, accompanied by intense cold, in which eighteen men are known to have perished, together with seventy mules. The date is one day later than the last *Marysville Herald* received by us, and is unquestionably to be relied on:

Yuba City, Dec. 18, 1850.

Editors of the Pacific News:

Gentlemen,—I expected to have been in San Francisco before this date, but have been detained longer than I anticipated, in the mountains. The rains have not been sufficient to unsettle the roads, even in the hills.

From the last reports upon the head-waters of Feather River, snow has fallen to the depth of 12 or 14 feet, and cold so intense that EIGHTEEN OUT OF A PARTY OF NINETEEN MEN, FROZE TO DEATH IN ONE NIGHT, and sixty or seventy mules. The snow fell so rapidly that the wood was all covered, and they were obliged to burn their cabin to keep from freezing; but even that did not save them. It is known that over two hundred men have remained upon the North Fork, with the determination of wintering there, and fears are now entertained that they will all perish.

Very extensive dry diggings have been discovered in the low ranges of hills between the Yuba and Feather Rivers, and in places so unlikely for gold, according to the notions heretofore received concerning deposits, that it is not only probable, but altogether likely, that the discovery of gold is but just began. The prospect is good for getting back some of the money lost in damming the Feather and Yuba Rivers, this summer, from the dry ravines looked upon as worthless while such great things were expected from "damming."

I have been very successful in testing my quartz vein, and obtaining specimens from it, which I will be down to show you, during next week, with some incidents concerning the trip, that may interest you—all of which will be duly submitted upon my arrival.

Very respectfully yours, G.

Interesting and Late from Klamath.

We have intelligence from Klamath City to the 28th of October, which, though not very late, yet in the present state of the weather and from the few vessels touching at the ports above, is the latest, and not without interest. The letter was addressed to a resident of Klamath City, now sojourning in San Francisco. We extract such portion as is of general interest:

"After I took my departure from Klamath City and your kind hospitality, with some trifling difficulty by the way, we reached the Forks of the Trinity and Klamath Rivers, where the Indians, I am sorry to say, took advantage of our passing a rapid to remove the plug from our boat, and sunk her without our being able to save a single thing—not even our fire arms. I myself had to swim for my life, and reached the shore with nothing more to cover me than a blue shirt.

"You can better imagine how we passed that night, without fire or food, and in the very midst of the worst tribe of Indians, than I can describe it. Thus ended our boating speculation. We then proceeded on foot to the Salmon River, a tributary of the Klamath, and the present central point of the mining operations, where we arrived just in time to find the various mining parties on the point of starting for the Shasta Diggings, in regard to which the most flattering news had just been brought in. We of course joined the crowd, and after seven days of severe toil in tramping over the hills, reached our destination, and had the satisfaction of finding, in miner's phrase, that the diggings had given out. So we had no alternative but to return again to Salmon Creek.

"I saw some of the gold that had been taken out, which was mostly in large "chunks," weighing from a quarter of a pound to two, and even as high as five pounds. It was estimated by those capable of judging, that upwards of $200,000 had been taken out of a comparatively small extent of diggings. Since that time I have been a wandering miner, spending all I had to work so hard for, barely to keep soul and body together, until driven to this place once more by the approach of winter—pennyless, homeless, but I am happy to say, not friendless.

"I am happy to be able to assure you that the Klamath Mines have turned out very rich—extending over the entire river, its branches, creeks and ravines. I am confident that next Spring these 'placeres' will take the lead of any of the older mines, if not of them all; for any man can with ease make his $12 to $15 per day, and many that I know, are averaging from $15 to $30 daily. These facts, no longer mere hearsay, but actual results, must give to Klamath City an importance as a depot of supply to an extensive mineral region, that will not fail to raise it into a prosperous town."

The above writer, who is a physician, expresses the greatest confidence in the ultimate success of the new town founded at the mouth of the river—so much so that he has sent for his baggage, and various necessary articles, intending to remain at that point. A river, the navigation of which is good for steamboats some sixty or eighty miles, almost to the very heart of the mining region, will surely attract trade and travel to that point, in preference to the ports lower down.

Board in the Country.--We take pleasure in calling the attention of those among our citizens who desire for themselves or families comfortable winter quarters, to the notice of the Angelo House, Fairview, situated about thirty miles from San Francisco, on the stage road to San Jose. It is a delightful place, near the margin of the Bay, and commands a fine view of a great extent of valley and mountain. Wild fowl in incalculable numbers, cover the bottoms along the bay, and back in the hills of the Coast Range are equally abundant—including grizzly bears—so that in every respect the opportunities for the sportsman are all that could be desired.

The Angelo House is a new and commodious structure, the proprietor and his lady are polite and attentive, and the fare, of fresh butter, eggs, milk, &c., would put flesh on the ribs of a Calvin Edson. Those who have traveled that road know all about it.

California Pioneers.—The semi-annual celebration of the Society of California Pioneers, will take place on the first of January. Extensive preparations are making for the festival, and we have no doubt it will be a magnificent affair.

First Alcalde, Appl't vs. Edward E. Dunbar.—This case was argued and submitted. Dwinelle for Appl't; McAllister & Emmet for Resp't.

The case of Priestley and Martin vs. DeBoon, was continued over to to-morrow.

Alexander Rose filed a petition in this court for a writ of habeas corpus, in behalf of five females, from the Marquesas Islands, one the "Queen of the bay," about fourteen years of age, and the others daughters of chiefs. The petitioner avers that these females were induced by false representations to go on board the schooner Jupiter, while lying at the Island of Dominick; that soon after they came aboard, the schooner sailed for this port, and has recently departed for Stockton; that during the voyage, and while in this port, the said females have been cruelly treated by the captain and mate, (Snow and Coleman by name,) and have been and are now detained against their will on board of said schooner. Petitioner further prayed for a command to said Snow and Coleman to appear and show the cause of the detention of these females. A rule to show cause, &c. was granted.

He therefore sued for the recovery of the sheep, and for damages consequent upon the detention. The case was tried before a jury, and a verdict for $1,560 was rendered for plaintiff. From Marysville.

The Marysville *Herald*, of the 17th inst., discusses "Squatters and Squatterism," in which the editor says, if the titles to certain lands should be shown to be defective, it "should be the *right* of every American citizen to squat upon such lands, and be entitled to hold them, in the quantities and under the conditions of the pre-emption laws of the United States."

The Herald still insists that merchants from San Francisco *have* offered to pay for the privilege of mooring their ships opposite the *city* of Marysville! There is nothing like sticking to a statement when once made.

A heavy storm occurred at Marysville on the night of the 15th, the wind blowing the zinc from the houses, and the rain deluging the earth.

Accident from the Storm.—We have just been informed by a friend of ours, a physician, that he was yesterday called to attend a man, upon whom one of the beams of a falling building was precipitated as he was sleeping the night before, and that it injured the spine to such a degree that it is thought he cannot survive. [Herald.

Charges against the County Treasurer.—Last month there were various reports in circulation, derogatory to the integrity and capability of Col. Levi W. Taylor, our County Treasurer. In consequence of these reports, a committee of the Grand Jury of the County visited the Treasurer's office, and examined the books of the Treasurer's accounts. The committee, without going into a searching examination of these, reported to the Grand Jury, who made a presentment, stating that the Treasurer's books were kept in a loose and irregular manner, and that they contained gross and wilful errors. Upon these charges being presented, the District Court cited Col. Taylor to appear yesterday week and answer.

The Court having heard the witnesses for the prosecution, dismissed the case, without submitting it to the jury. [Ibid.

Good News.—Among the evidences that our town is appreciated, we may mention the fact, that a gentleman who has been transacting business in San Francisco, and has lost several times there by fire, has determined to come to Marysville to reside, add will bring with him about sixty Chinamen. He also intends to erect several staunch building shere. It is from enterprise such as this that Marysville will grow to an importance, which few, even of the most sanguine, can anticipate.

The Chinese will make quite peaceable and industrious citizens. At least those are the prominent characteristics of the Chinamen who reside in San Francisco; and we can almost say that their "name is legion." [Ibid.

Vaudevilles.—The first vaudeville performance in California, will be given tomorrow evening, at the Jenny Lind Theatre, and will no doubt be an attractive entertainment. The company consists of twelve persons, the performance being under the management of three accomplished French ladies.

Bayard Taylor's California.—We are pleased to learn that Messrs. *Bonestel & Williston*, Post Office Piazza, have just received a supply of the above interesting work, which they offer for sale, together with a variety of other agreeable and useful reading. No one has described California as it is, so truthfully as has Bayard Taylor.

☞ We have a communication from "F." in reply to the editorial of the *Courier* yesterday, which we will try to find room for on Monday.

Sunday Paper.—"Spy Glass," of the *Picayune*, states that a Sunday paper is about being commenced at Sacramento, by Conner & Forrest.

Sacramento Intelligence.

Mr. Gregory furnished us Sacramento papers of Thursday morning.

The *Placer Times* opposes the payment, by the city, of the bill of Dr. Hastings, of this city, for professional services to the late Mayor Bigelow. The amouut claimed is $5,225. The Times states that the total amount of claims sent in for medical attendance is over $16,009, and says that with the payment of these claims Sacramento has nothing to do.

For the week ending the 15th inst., there were eleven deaths in Sacramento.

A committee of the Common Council has been appointed to revise the City Charter. San Francisco had better follow the example.

Prisoners Escaped.—During Tuesday night last, four prisoners escaped from on board the prison brig, which lies in the river. It appears that they cut through the floor into the hold of the vessel, and then proceeded cautiously to the port holes in the bow, from whence they escaped into the small oar boat attached to the brig. Two of the four had been arrested on the charge of murder, Waters, from Butte county, and Kiger, from Yuba. We are not aware of the crimes with which the other two stand charged. It is said that the prisoners cut through the floor with a small pen-knife, which must certainly be regarded as somewhat extraordinary. [Transcript.

Anthracite Coal.—A gentleman who has recently returned from an excursion to the country, informs us that he visited an extensive bed of this coal some forty miles from Sacramento city. It had been thrown open by miners searching for gold, and he assures us that the vein is extensive, and the coal of the very best quality. Whether any attempt will be made to make this vein available, we cannot say, as our informant had not decided upon what course he would take, if any, when we saw him. [Times.

Lynch Law.—Dr. Sargent, of Ringgold, had two horses stolen a week ago last Sunday night. Last Wednesday he caught the thief with the horses at Dayley's Ranch. Judge Lynch was called in, and the thief tied up to a tree. A Spaniard volunteered his services to execute the sentence, and fifty lashes were given on his bare back. [Transcript.

Cholera in the Mines.—A gentleman from the town of Ophir, in Sutter county, informs us that several persons died of cholera there about a week since. The deaths were very sudden; the victims generally being taken in the evening, and dying early the following morning. [Transcript.

A Chunk worth Finding.—A miner in the diggings near Ophir, Sutter county, picked up a lump of gold last week worth $10,000. This proves that all the big lumps had not previously been gathered, and we feel satisfied that there are a "few more still left." [Transcript.

Jenny Lind Theatre.

The "Lady of Lyons" was played at the Jenny Lind for the second time, last evening. The "Claude Melnotte" of Mr. Stark was very creditable as a whole, though the scenes between himself and his mother, were exceedingly tame. The Prince's description of his castle home, was badly read, while other portions of the play were equal to the first actors upon the boards. Mrs. Kirby's "Lady" added nothing to her reputation as an actress. There was a sameness, a want of feeling throughout, that evidently had a bad effect upon the whole performance. But one *good* point was made during the evening, and that, too, in a character that enables one to exhibit the *artist* in the greatest perfection. Mrs. Hambleton, as the mother of Pauline, was very good, though she *acts* the character far better than she *looks* it. She cannot play the elderly lady to advantage, until time has accomplished for her face, what art fails to do. The frank, plain old Col. Damas, by Mr. Hambleton, was decidedly good. The sagacious, cool, French soldier was manifested throughout. Beauseant and Glavis were so-so. Neither Mr. Campbell nor Mr. Zabriskie are calculated for the style of character, though we have seen the former do some things capitally. As a whole, the piece dragged throughout the evening, and the want of *life* upon the stage, was not without its damp and deadening effect upon the audience.

To-night, Mrs. Kirby takes a benefit, the beautiful comedy of "money" being produced.

Commercial.

We are again compelled to notice a still further decline in prices for every description of staple goods.

Holders of large stocks will be compelled to withhold their goods from market for the present, or suffer a reduction alike ruinous to themselves and to the shippers.

We learn this morning that a project is on foot among those more immediately interested in the success of the "Pacific Marine Insurance Co." to induce its Managers and Directors to take risks on merchandize afloat, whether in storeships or otherwise. This we look upon as being of the first importance, to our commission merchants, as it will enable them to effect loans on stock which they might otherwise be compelled to force on the market during its present depressed state.

State, county and city scrip are without change, and we are surprised to see the Picayune *persist* in quoting county scrip at 85a90 cts, when it is well known that no such price can be obtained for it. We have a *small* amount on hand we would gladly dispose of at a profit less than the Picayune's lowest figure, say at 60 cts, and will agree to furnish any amount at that limit.

A careful examination of our files of Valparaiso papers furnishes very little of general interest. We gather, among others, the following item in regard to

Chili Produce.—Flour, $7 per bag of 200 pounds; prices hold firm, and no decline may be expected until the fate of the new crop is known. If the demand for California continues, prices must be sustained. The exports during the past six months may be estimated from 36 to 37,000 bags monthly, embracing the whole coast.

It will be seen that our market is exercising a very important influence in this quarter, and our shrewd business men will avail themselves of the suggestions gatherable from the above quotation. We observe, in the Mercantile Reporter, the arrival at that port of the American ship Virginia, with $75.000 in gold dust from one of our enterprising houses, doubtless intended for the purchase of Flour for this market.

We notice that several influential citizens of Valparaiso have commenced the project of settling and cultivating the island of Juan Fernandez—another ripple on that great tide of progress which is so rapidly gathering strength on the Pacific shores.

The company engaged in this enterprise, headed by some of the first citizens of Valparaiso, has secured the exclusive privilege of occupying the ilsand for a term of years.

We also notice that a company has been organized, and already the necessary steps have been taken to commence the survey of a route for a line of railroad between Valparaiso and Santiago, by the way of Concon, Quillota and San Felipe. This takes in a considerable mineral and agricultural district. The projectors have our best wishes for their success.

On Board Steamer New World,
December 20th, 1850.

The undersigned, passengers on board of the Erastus Corning, on her downward passage from Stockton to San Francisco, with great pleasure avail themselves of the earliset opportunity of bearing testimony to the ability and kindness of Capt. McLean, and Mr Whitney, Clerk of the Erastus Corning, during the unfortunate disaster which occurred to their steamer on Pablo Bay this morning at 1 o'clock, during a dense fog.

To the officers of the E. C. we feel indebted for their coolness and management on the occasion—perhaps for the safety of the entire company on board—the more especially to Mr. Leighthall, who, with commendable zeal and perseverance, so soon succeeded in stopping the leak.

We cannot close this testimonial without referring in a grateful sense, to their hospitable reception on board the steamer New World by Capt. Hutchins, as well as the timely refreshments furnished us by her gentlemanly steward, Mr. Gamble.

Half-past 6 o'clock, a. m.—We have just heard with great grtification, that there is a favorable prospect of the E. C. being gotten off and on her route again within a few days.

THE TOWN OF KLAMATH.

ON THE KLAMATH RIVER—The only direct and the cheapest route to the Klamath and Salmon River Mines—has been surveyed and laid out, being situated about three miles from the entrance of the river into the Pacific, in latitude 41 deg. 33 min. North, about 250 miles from San Francisco, and is destined speedily to become one of the most flourishing towns in California, as premised from the following facts, to wit: The Klamath River affords a safe and excellent Harbor, and at all times capable of ingress or egress to the heaviest shipping; and is navigable for steamers from the Town to the Mines, distant from 50 to 75 miles. The river abounds with the finest salmon, the valleys with deer and elk, the forests with a noble growth of pine and red wood, fit for piles, spars, or lumber. While the Mines on the Klamath and its numerous tributaries, among which are the Salmon, Shasta and Ross rivers, are, it is confidently believed, paying better than any other mines in California, as during the past season they have averaged not less than one ounce of gold per day to a man, while multitudes of the more industrious class have made their two and three ounces a day. The climate is one of the finest and most healthy that California affords. Therefore, to the Merchant, the Miner, Mechanic, and Capitalist, it may be truly said: here is presented a field for the investment of labor and capital not surpassed by any other in California. Vessels are now running from San Francisco to the River, and a line of steamers will soon be put on the route; also a steamboat to ply between Klamath and the Mines.

For further particulars inquire of SHULTZ & PALMER, foot of Jackson street, or JOHN GRAY, Jr., Central Wharf, opposite Whitehall, where maps of the Town can be seen.

Messrs. C. & L. have purchased the entire edition of the "Bound Volumes," and will supply all orders for single copies, as fast as received from New York. As the first lot of 100 copies only will arrive on the 20th, gentlemen desiring to secure a copy must call and leave their names. The demand for the Laws will be much larger than can be filled for some time, and the rule of "first come, first served," will be adopted.

SAN JOSE. SAN JOSE.
BERFORD & CO'S LINE
OF EXPRESS MAIL STAGES,
HALL & CRANDALL, PROPRIETORS,

ARE now running every morning to San Jose, leaving Breford & Co's office, in the Plaza, at 8 o'clock, A. M. and the City Hotel, in San Jose, at 7 o'clock, A. M.

The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California han that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skilful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.

The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to SAFETY, while the drivers, who have served a long apprenticeship from New England to Mexico, make the QUICKEST time and NEVER MEET WITH ACCIDENTS, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the line a trial. n7tf BERFORD & CO.

CHEAP PLEASURE EXCURSION.

THE UNITED STATES MAIL Line of Stages will, on and after this date leave the EMPIRE HOUSE, San Francisco, daily, (Sundays NOT excepted,) at 8 o'clock, A. M., for SAN JOSE. And from the Mansion House, San Jose, daily, at 7 o'clock, A. M., for San Francisco.

This line is furnished with the best stages and horses the country can produce, and carries passengers through the whole distance—60 miles, in about Six hours.

The Proprietors have reduced the rates of fare so as to enable all who desire a trip over one of the most beautiful roads in the world, to do so at a very small expense, and hope thereby to receive such patronage as the enterprise merits. The climate of San Jose being one of the most healthy in the country, is highly recommended to invalids exclusive of the pleasure of the Excursion.

For further particulars inquire at the offices.

§13. Every licensed pilot, previous to entering on his duties, shall give bond to the amount of five thousand dollars, payable to the State of California, for the faithful discharge of his duty, which bond and security shall be approved of by the Commissioners, and shall be filed in their office.

§14. The Commissioners shall have full power to suspend pilots, or revoke their licenses, on proof of incapacity or misconduct.

§8. Every vessel subject to quarantine must be designated by a quarantine flag, to be fixed in a conspicuous part of the main shrouds of the vessel, until the expiration of her quarantine

§10. No vessel subject to quarantine shall remove from the quarantine grounds without a written permit from the Health Officer.

§11. It shall be the duty of the Board of Health to provide a building, at a safe distance from the hospital buildings, on the hospital grounds, for all passengers of a vessel or vessels placed under quarantine, who are not diseased, who may choose to go on shore; and those who are unable to maintain themselves shall be provided for by the master, owner or consignee of the vessel, unless in cases where a special agreement to provide for themselves during the voyage has been entered into, in which case they shall be provided for by the Board.

§24. The Health Officer, if he shall judge it necessary to prevent infection or contagion, may cause, upon the order of the Board of Health, any bedding or clothing on board a vessel subject to quarantine, or any portion of her cargo that he may deem infected, to be destroyed.

§25. The Health Officer, upon the application of the master of any vessel under quarantine, and his consenting to pay for the maintenance of the offender whilst in custody, may direct to be confined in some suitable place on shore, any sailor or mariner on board of such vessel, who shall have committed an offence punishable by the laws of this State, or of the United States, and who cannot be properly secured for punishment on board of his vessel; such confinement shall continue during the residue of the quarantine of the offender; and the expenses of maintaining the offender shall be charged and paid in the same manner as the expenses of maintaining poor passengers.

§27. Every person who, without the authority of the Health Officer or Board of Health, shall wilfully go within the inclosure of the quarantine grounds shall be considered guilty of a misdemeanor, the fine for each offence not to exceed five hundred dollars, nor the imprisonment thirty days.

§28. Every person who shall go on board of, or have any communication, intercourse, or dealings with any vessel at quarantine, knowing the vessel to be in quarantine, without the permission of the Health Officer, shall be considered guilty of a misdemeanor, punishable by fine not less than one hundred dollars, nor more than five hundred dollars.

§29. Such offender shall also be detained at quarantine so long as the Board of Health shall direct, not exceeding ten days, unless he shall be taken sick of some pestilential or infectious disease.

The Health Commissioners shall give to such owner or consignee as shall pay the commutation aforesaid, a receipt containing all the names of the persons for whom such commutation shall have been paid; and shall also give to each individual for whom such commutation shall have been paid, a certificate or receipt, setting forth the fact that such commutation has been paid, and that the person described therein shall be entitled when sick to the benefit of the Marine Hospital.

The receipt of the Health Commissioner shall be deemed a full and sufficient discharge from the requirements of giving bonds as above provided.

§13 Each master, owner, or consignee paying "Hospital Money" shall be entitled to demand and recover from each person for whom they shall have paid the sum paid on his account.

§14. All monies received by the Health Commissioner under and by virtue of this act, shall be denominated "State Hospital Moneys," and shall be appropriated to the use of the Marine Hospital, except as herein otherwise provided, deducting to the Health Commissioner a commission of six per cent. for and upon all collections: Provided the percentage shall not exceed two thousand five hundred dollars for any one quarter.

§13. Any Mechanic or artisan who shall make after, or repair any article of personal property, at the request of the owner or legal possessor of such property, shall have a lien on such property so made, altered, or repaired, for his just and reasonable charges, for his work done and materials furnished; and may hold and retain the possession of the same until such just and reasonable charges shall be paid; and if not paid for in the space of two months after the work shall have been done, such mechanic or artisan may proceed to sell the property by him so made, altered, or repaired, at public auction, by giving three weeks' public notice of such sale, by advertisement, in some newspaper published in the county in which the work may be done, or if there be no such newspaper, then by posting up notices of such sale in three of the most public places in the town where such work was done; and the proceeds of such sale shall be applied, first, to the discharge of such lien, and the costs and expenses of keeping and selling such property, and the remainder, it any, shall be paid over to the owner thereof.

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, WHO WISH Homes. Having completed my survey in the southern part of the city of San Jose, in all 900 lots, 25 by 47½ varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 50 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New Surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen am wherenorth or east of us, in California; and the grain growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE AND HEALTH—Listen now: The average summer heat is 75 to 80 degrees, with cool nights; no musquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer. We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 110, sound in body and in mind. We have had but one death out of the immigration of 1846, an old gentleman who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law-abiding and a law-supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon, to the subscriber, in the south end of the city.

PROSPECTUS
OF THE
SAN DIEGO HERALD.

"There the large olive rains its amber store
In marble fonts, there grain, and flower, and fruit,
Gush from the earth until the land runs o'er."
[*Byron*.

The undersigned beg leave to announce to the public of California generally, and to the English-speaking population of Southern California in particular, that they intend to publish a newspaper at San Diego, under the above title, the first number of which will be issued about the first of January, proximo.

Terms of subscription, $12 per annum. In politics, the San Diego Herald will be *independent*, but not neutral; it will be the organ and engine of no party,—but the impartial advocate of such measures as shall seem best calculated to promote the general welfare of the State, and advance the local interests and property of Southern California, or more immediately of the District of San Diego.

Its design, however, will by no means be to engender any sectional jealousies, or to encourage any measures at variance with the unity and harmony of the State. Its paramount object will be to describe the localities and unfold the resources of "the sunny and luxuriant regions of the South"—to watch over their social and administrative interests,—and to promote their welfare by every legitimate means and influence which the press can employ.

To the American residents in Southern California, the publishers will look for their principal support; and considering the expense of the undertaking and its immediate importance to the local interests of San Diego, it is hoped that the publication will meet with their liberal encouragement. Among the inhabitants, however, of the Northern districts, the *San Diego Herald* will expect to have many readers desirous to obtain authentic information und periodical intelligence from the South.
